

0) Pokud bylo odloženo z minule: Kontrola WB 82 - 85, dále **86 - 89**

1) krátké opakování 98 99 a řekneme si **básničky, které měli** mít už minule za úkol !

2) *odloženo* nebo **opakováno z minule: SB 102** – words, listening

3) **HW WB pokud nebylo hotové 88 89, dále review 90 91**

4) *Možná v této hodině, spíš až příště:*

Navážeme na slovní zásobu – gadgets, electrical appliances – přístroje, elektrické spotřebiče, (v SB102 byla již známá slovíčka) , **rozšíříme o více výrazů – viz obrázková příloha.**

Začneme procvičovat **vztažné věty** –

Pračka je přístroj, *ve kterém* pereme prádlo. To je můj starý telefon, *který* jsem dostal od táty...

O věcech zde můžeme používat **that** nebo **which**, ale nikoli ~~what~~!

What are these things? (Use the words in the pictures that you get from me)

A is a machine **which** you use to clean the floor.

A is a gadget **that** people use to dry their hair.

A is a gadget **in which** you can warm up your lunch very quickly.

A is something **that** you need when the battery of your phone is flat.

An is a metal gadget **that** people use to press wrinkles on clothing.

A is a machine **that** people use to make clothes.

A is a gadget **that** people use to cut food into tiny pieces or make a smoothie.

A is the thing **on which** you type when you use a computer.

A question: Do we use **which** or **that** after prepositions, for example *in, on?*

(Který výraz používáme po předložkách? Např. přístroj *ve kterém...*, *se kterým...* *which, nebo that?*)

Doplň do vět WHICH nebo THAT o věcech, WHO o lidech.

Maria is my aunt, ... gave me headphones for my birthday.

Please bring me the grapes are in a bowl in the fridge.

That's the classmate borrowed my battery charger and didn't give it back.

There was a tourist took a photo of us on our camera.

Jim is a friend of mine. He often invites me to watch films on his home theatre system.

That's the keyboard I spilled tea on, so it doesn't work.

That's the old printer I can give you for free.

This is a perfect blender **in** you can make delicious smoothies.
