

1) Navážeme na slovní zásobu – **gadgets, electrical appliances – přístroje, elektrické spotřebiče**, (v SB102 byla již známá slovíčka) , **rozšíříme o více výrazů – viz obrázková příloha.**

Začneme procvičovat **vztažné věty** –

Pračka je přístroj, *ve kterém* pereme prádlo. To je můj starý telefon, *který* jsem dostal od táty...

O věcech zde můžeme používat *that* nebo *which*, ale nikoli ~~*what!*~~

What are these things? (Use the words in the pictures that you get from me)

A is a machine **which** you use to clean the floor.

Ais a gadget **that** people use to dry their hair.

Ais a gadget **in which** you can warm up your lunch very quickly.

Ais something **that** you need when the battery of your phone is flat.

Ais a machine **that** people use to make clothes.

Ais a gadget **that** people use to cut food into tiny pieces or make a smoothie.

Ais the thing **on which** you type when you use a computer.

A question: Do we use **which** or **that** after prepositions, for example *in, on*?

(Který výraz používáme po předložkách? Např. přístroj *ve kterém*..., *se kterým*... *which, nebo that*?)
